Fish Oil Failure Shines a Grim Light on America's Memory Crisis

America's top memory M.D. reveals the startling reason why "senior moments" may be caused by fish oil — and the #1 way to fix it fast

More than 16 million Americans suffer age-associated cognitive impairment. And according to nationwide research, these numbers are only rising.

Thankfully, anti-aging specialist and best-selling author, Dr. Al Sears, says there's an easy way to banish senior moments for good. It's a safe, natural compound that can grow the brain significantly bigger.

And unlike failed solutions that promise what they can't deliver, this one actually works — at least, according to studies from Framingham, and other reputable universities.

But in order for it to work, you must avoid using run-of-the-mill fish oil supplements. "The worst thing you can do for your memory," explains Dr. Sears, "is to supplement with fish oil."

Dr. Al Sears, a highly-acclaimed MD — who has published more than 500 studies — says today's low-grade supermarket fish oil is causing the surge in America's memory crisis. "These cheap oils are no longer as nutrient-dense as they once were," he explains.

If you want to get rid of embarrassing senior moments Dr. Sears recommends a different approach.

THE SECRET TO A LASTING MEMORY

Research has shown our paleo ancestors were able to grow bigger and smarter brains by eating foods rich in one ingredient — DHA. "Our hippocampus thrives off DHA, and grows because of it," explains Dr. Sears. "Without DHA, our brains would shrink, and our memories would quickly fade."

A groundbreaking study from the University of Alberta confirmed this. Animals given a diet rich in DHA saw a 29% boost in their hippocampus — the part of the brain responsible for learning and memory. As a result, these animals became smarter.

The same was found in human studies, too. After analyzing more than 1,500 seniors, the Framingham study found that those whose brains were deficient in DHA, had significantly smaller brains — a characteristic of accelerated aging and a weakened memory.

"Unfortunately, it's almost impossible to boost levels of DHA simply by eating more fish or fish oil," explains Dr. Sears. "DHA in fish oil has plummeted over the years. And it's being replaced by another compound. One that can cause memory failure and brain

fog."

The ingredient Dr. Sears is referring to is called ALA — a compound found in cheap, grocery store fish oil. Studies have shown that even moderate levels of ALA can eat away at your memory and make you forgetful.

PEOPLE'S BRAINS ARE SHRINKING AND THEY DON'T EVEN KNOW IT

Fish farming has caused DHA levels to plummet and ALA levels to rise, according to Dr. Sears.

"In order to produce DHA," he explains, "fish need to eat a natural, marine diet, like the one they'd eat in the wild." Without a marine-rich diet, most fish won't produce DHA.

Dr. Sears uncovered that sometime during the 1990s, fish farmers stopped giving their animals a natural, DHA-rich diet and began feeding them a diet that was 70% vegetarian.

"It became too expensive for farmers to feed fish what they'd eat in the wild," explains Dr. Sears. "And since more than 80% of fish oil comes from farms, it's no wonder the country is experiencing a memory crisis. Most people's brains are shrinking and they don't even know it."

"Since fish farmers are depriving these animals of their natural diet, ALA levels in fish oil are going up, while DHA levels are being cut in half.

When asked, what can people do to improve their memory and brain function in the most effective way possible? Dr. Sears replied, "Find a quality DHA that doesn't come from a farmed source. Only this will help improve memory by growing the brain significantly bigger."

Dr. Sears and his team have been working tirelessly for the last 24-months developing a unique brain-boosting formula called **Omega Rejuvenol**. It's made from the most powerful source of DHA in the ocean, squid and krill — two species that cannot be farmed.

According to Dr. Sears, these are the purest and most potent sources of DHA in the world, because they haven't been tampered with. "**Omega Rejuvenol** is sourced from the most sustainable fishery in Antarctica. You won't find this oil in any stores."

MORE IMPRESSIVE RESULTS

Already, the formula has sold more than 27,000 bottles. And for a good reason, too. Satisfied customers can't stop raving about

Why the 'brain fuel' ingredient in fish oil is slowly drying up.

the memory-boosting benefits of quality-sourced DHA oil.

"I see a noticeable increase in my brain function. I'm experiencing a noticeable increase in my concentration level and productivity throughout the day," says satisfied customer, Timothy B.

"It's great to remember everyone who played in the '75 World Series. My memory has never been sharper," says Mike T.

"After the first time I took it, I experienced mental clarity and focus. I noticed my mental function improve and I could concentrate better and be more productive throughout the day," raves John F.

And 70-year-old Mark K. says, "My focus and memory are back to age-30 levels."

These are just a handful of the thousands of reviews Dr. Sears receives on a regular basis thanks to his breakthrough memory formula, **Omega Rejuvenol**.

To secure the hot, new **Omega Rejuvenol** formula, buyers should contact the Sears Health Hotline at **1-800-304-4109** TODAY. "It's not available in retail stores yet," says Dr. Sears. "The Hotline allows us to ship directly to the customer." Dr. Sears feels so strongly about **Omega Rejuvenol**, all orders are backed by a 100% money-back guarantee. "Just send me back the bottle and any unused product within 90 days from purchase date, and I'll send you all your money back."

"QUANTUM LEAP" GETS A REBOOT!

The Time-Traveling Adventures Are Set Nearly 30 Years Later.

By Jeff Pfeiffer

Oh, boy! The original 1989-93 series ended with earnest time-traveling scientist Sam Beckett (Scott Bakula) disappearing. Nearly 30 years later, this continuation assembles a new team to restart the innovative program's Quantum Leap accelerator. Hopscotching-through-history duties fall to Dr. Ben Song (Raymond Lee), a devout physicist.

This revival (beginning Monday on NBC) has some good things going for it that make it worth checking out. For one thing, original creator/writer/executive producer Donald P. Bellisario, and original writer/EP Deborah Pratt (who also provided the original's narration and voiced the self-aware supercomputer Ziggy), are both back as producers.

Additionally, while able to be enjoyed as a stand-alone new series, this *Quantum Leap* can also be seen as a sixth-season continuation of the original; it inhabits the same universe, taking place 30 years after Beckett never came back.

This new team is led by Dr. Song, who, after making an unauthorized leap into the past, finds himself stuck in Beckett's predicament: jumping into other people's lives across various decades, righting past wrongs while he and his teammates look for a way to bring him back to his own life. Ben

is helped by Addison (Caitlin Bassett), a decorated Army veteran who brings levelheaded precision to her job, and who appears in the form of a hologram that only he can see and hear.

Ernie Hudson's character, no-nonsense career military man Herbert "Magic" Williams, heads the new Quantum Leap program. Fans of the previous series may recall this character (played by another actor) as the Vietnam War veteran Beckett leaped into in Season 3's second episode, "The Leap Home: Part 2 (Vietnam)," in 1990.

Rounding out the team are Mason Alexander Park as Ian Wright, who runs the Ziggy artificial intelligence unit, and Nanrisa Lee as Jenn Chou, who heads up digital security for the confidential project.

With Beckett still a part of this new series' mythology, and perhaps still out there leaping through time, fans have been wondering if former star Bakula may appear at some point to reprise that role, especially given the mixed feelings that came when the original series' 1993 finale ended with the note that Beckett never returned home. Nothing on that has yet been confirmed; if it does happen, we imagine it won't be right away, so as to give viewers a chance to fully get to know the new characters.

Ken Burns' Latest Docuseries Explores The Holocaust

Ken Burns, Lynn Novick and Sarah Botstein directed and produced the unflinching three-part documentary film *The U.S. and the Holocaust* (Sunday-Tuesday on PBS), which explores America's response to the Holocaust, shedding light on what the U.S. government and the American people knew and did, or didn't do, as the catastrophe unfolded in Europe. It also examines the rise of Hitler and Nazism in Germany in the context of global antisemitism and racism, the eugenics movement in the United States and race laws in the American South.

"History cannot be looked at in isolation," Burns explains. "While we rightly celebrate American ideals of democracy and our history as a nation of immigrants, we must also grapple with the fact that American institutions and policies, like segregation and the brutal treatment of Indigenous populations, were influential in Hitler's Germany. And it cannot be denied that, although we accepted more refugees than any other sovereign nation, America could have done so much more to help the millions of desperate people fleeing Nazi persecution."

"ONE CHICAGO" LEADING LADIES

Returns: Wednesday on NBC

CHICAGO MED MARLYNE BARRETT Nurse Maggie Lockwood

Where We Left Off: This may be *Chicago Med*, but the Season 7 cliffhanger was all about fire. Flames moved through Dr. Will Halstead's (Nick Gehlfuss) apartment building, potentially trapping him and fellow doc Dylan Scott (Guy Lockard). Meanwhile, Maggie dealt with the

embers of an old love when daughter Dr. Vanessa Taylor's (Asjha Cooper) birth father, Grant Young (Wayne T. Carr), reappeared.

Where We Pick Up: It'll be all hands on deck to treat the fire's survivors, and as Season 8 begins, Maggie's concern focuses on Will. "He's one of my best friends, he's my brother," Barrett says of their bond. "And all I can say is, [the building] burned really badly." Dealing with former flame Grant will be dicey, despite Maggie being married. "When I found out that Vanessa's father was coming, I was like, 'Sweet chalupa, why?'" Barrett says. "But I always knew there was a possibility of a bond that was so rich."

CHICAGO FIRE KARA KILLMER Paramedic Sylvie Brett

Where We Left Off: Finally ... Stellaride made it official: Lt. Kelly Severide (Taylor Kinney) and Lt. Stella Kidd (Miranda Rae Mayo) exchanged vows in the drama's Season 10 finale. But wedded bliss didn't last very long, because they found an intruder at their cabin.

Where We Pick Up: Figuring out who that bad guy is will start things off in Season 11. "We're going to see the fallout of that," notes Killmer. And while best man Matthew Casey (Jesse Spencer, who exited last season) came back for the wedding, Casey and Sylvie's long-distance relationship is questionable. Prepare to watch her get lost in her job for a bit. "She has the paramedicine program she created," Killmer says. "You're really going to see her try to make a difference in the city." And "you might see an old love pass through too."

CHICAGO P.D. TRACY SPIRIDAKOS Detective Hailey Upton

Where We Left Off: In his efforts to bring in elusive drug kingpin Javier Escano (José Zúñiga), Sgt. Hank Voight (Jason Beghe) put confidential informant Anna's (Carmela Zumbado) life in jeopardy, and both Javier and Anna end up dead.

Where We Pick Up: Season 10 starts about two weeks after the shooting — and Voight and Hailey "haven't really discussed what's happened," Spiridakos says. That causes a world of tension between the pair. "Hailey is worried about Voight, and Voight is fixated on making Anna's death mean something." The finale's events also put a strain on Hailey and husband/fellow detective Jay Halstead (Jesse Lee Soffer). "Hailey's worried about Jay," Spiridakos adds. "They're both concerned for Voight, but their approach to how to handle it is very different."

Morgan Silver Dollars Are Among the Most Iconic Coins in U.S. History

What makes them iconic? The Morgan Silver Dollar is the legendary coin that built the Wild West. It exemplifies the American spirit like few other coins, and was created using silver mined from the famous Comstock Lode in Nevada. In fact, when travelers approached the mountains around the boomtown of Virginia City, Nevada in the 1850s, they were startled to see the hills shining in the sunlight like a mirror. A mirage caused by weary eyes? No, rather the effect came

from tiny flecks of silver glinting in the sun.

This Lamp Is A Sight For Sore Eyes!

Last year, my father actually gave up on reading – the eyestrain was just overwhelming. But now, with this lamp, Dad can even read his newspaper again. Thanks for delivering on everything stated in your ads and restoring my father's favorite hobby – reading!"

– Sara H.
Arlington, Va.

THE KEEP IT SIMPLE! KIS Lamp

MyLight has combined classic lamp design with a revolutionary light source. The combination delivers exponentially more light for reading or any other task.

Underlighting is overrated

In your lamps, the new "retrofit" CFL and LED bulbs do not produce the same amount of task light as ordinary bulbs. Just as we've gotten older and our eyesight has declined, **OUR LIGHT HAS FAILED US.**

YOU NEED:

- A quantity and quality of light geared to better contrast and clarity for older eyes.
- Less glare in your field of vision

Only 32 WATTS

Compare to any lamp at any price.

SPECIAL OFFER

includes KIS lamp, (5) bulbs, lampshade and LED Dimmer.

Easy assembly. Lamp column simply screws into the base.

Sundays on **ABC** are synonymous with family fun as Hollywood stars test their knowledge with the ultimate game of trivia on **Celebrity Jeopardy!**, premiering Sunday, September 25 from 8 to 9 PM ET/PT. This new series welcomes celebrity contestants to compete for a chance to win money for a charity of their choice. Then from 9 to 10 PM ET/PT, **Celebrity Wheel of Fortune** returns with its star-studded spin on America's Game®. Hosted by pop-culture legends Pat Sajak and Vanna White (pictured above), this popular series welcomes celebrity contestants to spin the world's most famous Wheel and solve puzzles for a chance to win \$1 million. All of the money won by the celebrity contestants will go to a charity of their choice.

The second season of **La Brea** premieres Tuesday, September 27 at 9 PM on **NBC**, streaming next-day, exclusively on Peacock. The series follows an epic family adventure after a massive sinkhole opens in Los Angeles pulling people and buildings into a mysterious and dangerous primeval land where they have no choice but to band together to survive. In season two, the Harris family remains separated as Eve is reeling from her son, Josh, having mistakenly gone through a portal to 1988. What she doesn't know yet is that her ex-husband, Gavin, and their daughter, Izzy, have landed in prehistoric Seattle and now must brave the elements and animals to make their way to L.A. The cast includes Natalie Zea, Eoin Macken, Jon Seda, Nicholas Gonzalez, Chiké Okonkwo, Zyra Gorecki, Jack Martin, Veronica St. Clair, Rohan Mirchandaney, Lily Santiago, Josh McKenzie, Tonantzin Carmelo and Michelle Vergara Moore.

FOX will premiere the new season of **Hell's Kitchen** on Thursday, September 29 at 8 PM ET/PT. The long-running Gordon Ramsay hit culinary competition series inspires chefs through an intense culinary academy to prove they have the endurance and skill to compete each week. But only those who possess the right combination of ingredients will continue until one is named winner. At stake is a life-changing grand prize, including chef positions at some of Ramsay's most famous restaurants around the country, and the title of *Hell's Kitchen* winner.

FBI 7 pm on CBS

Season Premiere

The team pivots when their sting operation to secure a massive bomb from an illegal broker leads them to discover that the device is already in the wrong hands in the Season 5 premiere episode *Hero's Journey*. Also, Jubal's (Jeremy Sisto) promise to be present at his son's birthday party is put to the test as the case continues to heat up.

The Resident 7 pm on FOX

Season Premiere

With Dr. Ian Sullivan (Andrew McCarthy) making Chastain Memorial Hospital his new home, the dynamics of working with his daughter Cade (Kaley Ronayne) is fertile ground. Add to that she's in a love triangle with Conrad (Matt Czuchry) and Billie (Jessica Lucas), and you can bet the Season 6 premiere will have plenty of meat on the bone.

FBI: Most Wanted 9 pm on CBS

Season Premiere

When a family of four from New York is found dead in a Georgia motel room, the Fugitive Task Force investigates a connection between the victims and the sale of illegal firearms. Also, Barnes (Roxy Sternberg) struggles with Remy's (Dylan McDermott) leadership style upon her return from maternity leave in the Season 4 premiere.

New Amsterdam 9 pm on NBC

Season Premiere

This will be the last season of the NBC medical drama, but there's still enough to keep us watching. That includes the promotion of Sandra Mae Frank, who plays deaf surgeon Dr. Elizabeth Wilder, to series regular. The Season 5 premiere will also need to explain the departure of Helen (Freema Agyeman) and how that relates to Max (Ryan Eggold).

**The Conners**
7 pm on ABC**Season Premiere**

The loving but dysfunctional Conner family returns in the Season 5 premiere that sets the stage for a new era for the family. Last season we saw both Darlene (Sara Gilbert) and Jackie (Laurie Metcalf) marry their long-time loves Ben and Neville (Jay R. Ferguson, Nat Faxon). That means the clan will no longer all be together in one house.

Survivor
7 pm on CBS**Season Premiere**

After 22 years, 620 episodes, 646 contestants and 639 torch snuffs, it's time for 18 strangers to get stranded on the islands of Fiji in hopes of surviving long enough to claim the \$1 million prize. The two-hour Season 43 premiere brings us yet another social experiment where people must manage risk over reward in a social game of wills and skills.

The Amazing Race
8:59 pm on CBS**Season Premiere**

For the first time in its history the show begins outside of the United States as the 12 teams competing in the Season 34 premiere begin their race in Munich, Germany. Even crazier, the show is eliminating "non-elimination legs," meaning one team will be out after every leg.

Big Sky
9 pm on ABC**Season Premiere**

The popular drama adds country legend Reba McEntire as Sunny Brick, matriarch of the Brick Family, a backcountry outfitter with a history of customers going missing. She joins the recent additions of Jensen Ackles as Sheriff Beau Arlen and Jamie-Lynn Sigler as Tonya in the series based upon the books by C.J. Box.

"I never had pain-free feet – UNTIL NOW!"

Pain Doctor Recommends Circulation-Boosting 'Miracle Socks' for Diabetes and Foot Pain Sufferers!

Breakthrough design improves blood flow, swelling, boost oxygen flow, and eliminate foot fatigue – naturally in as little as 5 minutes!

What part of your tired, swollen, sweaty or achy feet would you like to see go-away?

If you suffer from poor circulation, swelling or any condition that makes your feet feel fatigued and sore, then read on to discover the solution that could change your life.

Good news comes in the form of a pain-reducing, circulation-boosting sock design from DailyNergy.

Better Blood Flow

This 'miracle sock' is made from proprietary blend of nylon and poly materials, which are optimally constructed to make a DailyNergy sock.

DailyNergy socks feature graduated compression which exerts the greatest degree of compression at the ankle, and the level of compression gradually decreases up the socks. This forces the blood to move upwards, where there is more space.

Wearing DailyNergy graduated compression socks is the most convenient, quick way of combating muscle soreness and fatigue. By applying the right pressure in the right places, DailyNergy socks help increase blood flow. When you increase the blood flow, your broken down soft tissue can repair itself more quickly.

"Have been wearing only DailyNergy stockings for a while now. After my 12 hr shifts as a nurse they do wonders for my legs, no soreness, no pain. I swear by them. Best investment ever. Thank you!" -Maryia S.

Doctor recommended:

"Pain, swelling, muscle soreness - these are just a few common symptoms not only in athletes but also in people doing normal day-to-day activities, especially those who suffer from varicose veins.

By utilizing graduated compression technology, which creates more pressure near the ankle and gets looser when moving up the leg,

DailyNergy is designed to promote improved blood circulation within the legs. A medical grade compression level used by DailyNergy socks may help ease foot fatigue, pain, muscle cramps, and improve blood flow, thus promoting heart health."

-Dr. Denys Tsveik

"Quality compression sock with an emphasis on compression. These socks maintain their compression for the duration on wear and aren't too tight/constricting. Perfect for my bike rides to help with circulation."-LB

Scott Adams, VP of Product Development for DailyNergy says, "Our socks are ideal for diabetics and those suffering from neuropathy or injury from repetitive use. DailyNergy socks can also bring comfort to tired legs within minutes of putting them on, energizing individuals who spend long hours on their feet."

Goodbye to Pain and Fatigue

"I recently bought a few pairs of DailyNergy socks because I have never wore them before so I wanted to try them. And let me say they helped my feet so much. They were so comfortable to walk around in. And so comfortable to go running in also."-Maritza N

BENEFITS:

- Increased blood flow and oxygen
- Reduced swelling and pain
- Wicks away moisture
- Increased range of motion

IDEAL FOR:

- Neuropathy
- Cramping
- Cold Feet
- A variety of vascular conditions

With Harper back, Phillies eye October baseball

As the Philadelphia Phillies continue their drive for a Wild Card berth, they'll need all hands on deck — including the recuperating hand of their best hitter.

Indeed, a Bryce Harper at full power would be a boon to the Phils' hopes making the playoffs but his availability this season has been a hit-or-miss proposition.

Back in April, he tore the ulnar collateral ligament in his right elbow making a throw from right field, an injury that forced a move to designated hitter. He filled that role until late June, when a pitch from the San Diego Padres' Blake Snell broke his left thumb and sent him to the injured list for more than two months.

Before going on the IL, the two-time National League MVP was his usual menacing self, batting .318 with 15 home runs, 48 RBIs, a .385 on base percentage and a .985 OPS. His robust performance, however, didn't keep the Phils from languishing around the .500 mark in the season's first two-plus months, well behind the New York Mets and Atlanta Braves in the NL East.

Since then, however, his teammates seemed to hit their

stride and play well enough to bring themselves back into the conversation for the second Wild Card berth. And they'll need their beastly lefty slugger to be at full strength if they're to hold off the Padres for a ticket to October baseball.

Harper's Phillies can be seen in action Thursday, Sept. 22, when they open a four-game home series against the Braves in a regional contest airing on Fox.

CHEERS TO PAUL RUDD

for checking into *Only Murders in the Building*. Teased as the Hulu comedy's next victim in the Season 2 finale, the ageless Rudd (below) joins stars Steve Martin, Martin Short and

Selena Gomez for mystery No. 3, as Broadway star Ben Glenroy.

CHEERS TO SARA TOMKO

for grounding *Resident Alien*. While Alan Tudyk's E.T. is a supernova of silliness on the sci-fi dramedy, it's Tomko's (below) emotional power that shines brightest as her nurse Asta Twelvetrees deals with killing a man to save her really out-there pal on the Syfy series' second season.

follow Cheers & Jeers

JEERS TO THE BOLD AND THE BEAUTIFUL

for pitting the CBS soap's eternal rivals Brooke (Katherine Kelly Lang) and Taylor (Krista Allen) against each other again. Don't they realize they can do much better than Ridge (Thorsten Kaye)?

JEERS TO THE END OF AN ERA.

After 12 seasons, Kelli Giddish, who plays Detective Rollins, is leaving NBC's *Law & Order: SVU*. We would like to press charges.

Emma Samms Returns To "General Hospital" As Holly

Forty years ago, *General Hospital* cast newcomer Emma Samms as Holly Sutton, the new love interest to Anthony Geary's Luke Spencer. While the pairing was a success, Samms found greater chemistry and a more successful romance once the show paired Holly with Tristan Rogers' Robert Scorpio. Now, after a two-year absence, Samms is set to reprise her role as the presumed-dead Holly.

"I'm thrilled that I get to play Holly Sutton Scorpio again after what has been a very difficult couple of years — not just for Holly

but for me," Samms says in a statement. "Whilst [Holly] has been held captive by a mysterious kidnapper, I have been in the grip of long

COVID, having contracted coronavirus in March 2020. I'm immensely grateful to [executive producer] Frank Valentini and the writers for their understanding and willingness to accommodate my ongoing health issues. I can't wait to get back to Port Charles."

"I am thrilled the wonderful Emma Samms will be returning to the canvas in October," said Valentini in a release, "so we can continue telling Holly's story and the fans can finally see what happened after we learned she was alive and being held hostage!"

As Samms is still dealing with long-term COVID effects, the show is going to work with the actress closely to ensure a successful return — which must come as a relief to the actress' concerned family. "Please everybody, especially the *GH* production and crew, look after her," Louise Gustafson, Samms' big sister, tweeted. "She is not better; she is just battling through it. She doesn't want to let her wonderful fans down, who have stood by her for so long. Please understand."

Back in 2020, Scorpio and Olivia Falconeri Quartermaine (Lisa LoCicero) traveled abroad as part of a spy-caper storyline. During their sojourn, Scorpio was led to believe that Holly was dead, but viewers saw her being held prisoner. Holly was seen on a monitor alive and well, but unable to let her loved ones know where she was.

Holly and Scorpio's love story began after Luke, Holly's love, was presumed dead in an avalanche. Scorpio gallantly stepped in to wed Holly, who was both pregnant and in danger of being deported back to England. The two fell in love for real (and the actors even dated for a while off-camera). Samms has come and gone from *GH* many times over the years. She's also known for her stint as Fallon Carrington Colby on both *Dynasty* and *The Colbys*.

Jon Bernthal, a Virgo (born September 20), of "American Gigolo"

ARIES (March 21 - April 19)
Use this week to think about your daily life. You're always on fire, rushing from one thing to the next. However, right now, Mercury retrograde is giving you the chance to overhaul your routines and start reworking them so they fall in your favor. Healthy routines, healthy life.

TAURUS (April 20 - May 20)
It's time for you to think about what you actually love to do. Life has been so tumultuous for you that you've been just hanging on, rather than allowing yourself to enjoy the passage of time. Use your current astrology to get back into doing things that light you up. Relax!

GEMINI (May 21 - June 20)
Thinking about your home and family life, what would you like to do better? Mercury retrograde in your home zone this week gives you the chance to redo anything in your private life that needs it. Maybe you need to revamp your actual home? Rethink your domestic set-up.

CANCER (June 21 - July 22)
This week could be confusing! Reason being, the planet of the mind, Mercury, is now retrograde in your mind zone. If you think that sounds like a double whammy, it is. Harness this energy by allowing your thoughts to work themselves out - slowly. Avoid rash decisions. Meditation will help.

LEO (July 23 - Aug. 22)
Mercury retrograde has a bad reputation but the fact is, it actually brings second chances to those who need them. Right now, you have a second chance when it comes to your finances. Rethink, revise and revisit all your financial schemes and see which is in your best interests. Ka-ching!

VIRGO (Aug. 23 - Sept. 22)
As your ruling planet Mercury slips back into your sign this week, ask yourself this; if a fairy godmother appeared and offered

you the chance to change your life, what would you wish for? You have the chance to make that wish come true now. What do you need to do?

LIBRA (Sept. 23 - Oct. 22)
Everybody is so caught up with the hustle of life these days that it's easy to forget to look after our mental health. Time out, meditation and contemplation, time in nature and time offline will really help you now. Old fears can resurface.

SCORPIO (Oct. 23 - Nov. 21)
Think of a friend you haven't seen in a long time that you'd love to reconnect with. The first person that comes to mind is the person that you should reach out to now. You have the chance to reconnect with someone who matters to you.

SAGITTARIUS (Nov. 22 - Dec. 21)
As Mercury retrogrades in your career zone, it's time for you to rethink your professional life. What's working and what isn't? Chances like this don't come along every day of the week. Rework your job description or rethink your career trajectory. What would you do if you knew you couldn't fail?

CAPRICORN (Dec. 22 - Jan. 19)
If you are traveling this week back to a place that you used to love, then you absolutely have the stars on your side. (Ditto if you're booking a trip back there.) It's also a very good time to pick up a study project that you have let lapse.

AQUARIUS (Jan. 20 - Feb. 18)
Rather than focusing on what isn't working in your finances, this is the week to think about what you can change so that it all works more in your favor. Perhaps you need to tweak your spending or saving habits? Do what it takes and the money will follow.

PISCES (Feb. 19 - March 20)
It might not feel like it, but this is a potentially positive time for you financially. Take time to think about your financial prospects. Is someone making you an offer that you really shouldn't refuse? You have good financial luck on your side right now. Positive financial developments are possible.

ASK MATT

WHAT WILL HAPPEN TO NETWORK TV NEXT SEASON?

@TVGMattRoush

Question: NBC might be dropping the third hour of prime time next fall! What does it mean for network TV lineups of only two hours per night? —Jo

Matt Roush: If you ever needed a sign of the times, this ranks high atop the list. As we shift from the DVR era to the streaming era, traditional broadcast network TV is more embattled than ever, from an advertiser and ratings standpoint. If NBC doesn't follow through with the plan to return the 10/9c hour to affiliates, this move is probably still inevitable in the next few years as streaming continues to dominate the marketplace and the companies that oversee the networks keep making their streaming platforms a priority. The Fox network and to a lesser degree The CW have shown how a two-hour nightly lineup works, and exceptions will be made for live events and sports, which will be the most important tentpoles for the networks. It's hard enough already for the networks to schedule 22 hours a week. Saturdays are mostly a dead zone, Fridays not much better (not counting CBS) and many hours are filled with reality competitions and newsmagazines, so maybe, we ultimately won't notice that much of a difference. How NBC will schedule its flotilla of Dick Wolf shows remains to be seen, but I imagine they'll draw their core audience whenever and wherever they air.

College Football 2:30 pm on CBS

Today's SEC on CBS Game of the Week features one of two games. Some markets will see a clash of Eastern Division foes as the Tennessee Volunteers host the Florida Gators, while others will see the Arkansas Razorbacks visit the Texas A&M Aggies in a meeting of West rivals.

Fly Away With Me 7 pm on HALL Premiere

When Angie (Natalie Hall) moves into her "no pets allowed" building, an exotic parrot arrives unexpectedly. New neighbor Ted (Peter Mooney) and the golden retriever he's secretly sitting try to help her find the bird's owner without being caught in this romantic comedy. Melinda Michael, Kathryn Kohut and Peggy Prud'homme also star.

Dying for a Crown 7 pm on LIFETIME Premiere

Lydia (Jennifer Titus) and her daughter Elle (Catharine Daddario) have just moved to Florida under mysterious circumstances. Lydia is the new assistant principal at Bellview High School where Elle is a senior. Being new to town, both are looking to live a better life and will do anything to achieve it. This thriller is inspired by true events.

The Matrix Resurrections 9:45 pm on HBO

The fourth installment in the *Matrix* franchise underperformed at the box office, although critics and fans alike praised the performances by an impressive cast. Taking place 60 years after the third film, the story follows Neo (Keanu Reeves), whose life as a game developer is disrupted by a programmed version of Morpheus (Yahya Abdul-Mateen II).

Men and Women Across the Country are "Waking Up" From Years of Fatigue and Low Energy

New "Cellular Energy" Pill Supercharges Your Metabolism and Restores Youthful Energy Lost Decades Ago

While millions of Americans experience worsening fatigue as they age, thousands are using a new "energy multiplying" pill called **Ultra Accel II** to help restore decades of lost energy and focus.

Dr. Al Sears — the owner and medical director of the Sears Institute for Anti-Aging Medicine in Royal Palm Beach, Florida — is the pioneer behind this new formulation that helps seniors regain youthful energy and a renewed sense of optimism.

"I've used CoQ10 for 25 years to help patients regain lost energy, but this newly discovered nutrient does what CoQ10 could never do alone... It's truly revolutionary and I see it transform the lives of my patients every day."

The secret seems to be the small organelles inside each of your cells called mitochondria. Often referred to as the "power plants" that manufacture energy inside your cells, they decline in power and number as you age.

Why Youthful Energy is Fleeting

By the time you reach age 67, more than 80% of the active mitochondria you had in your youth are gone, according to research from the *Journal of Gerontology*.

If you've struggled to find a solution for your lack of energy, this is the likely culprit. Pots of coffee, early bedtimes, or exotic herbs don't stand a chance against the rapid loss of mitochondria.

The Only Nutrient that Grows New Mitochondria

When NASA scientists sifted through dust samples collected by a space probe, they made a groundbreaking discovery. And it's turning out to be a game changer for seniors who constantly complain to their doctors they "want their energy back."

It's a natural element called *pyrroloquinoline quinone* (PQQ) that triggers something called "mitochondrial biogenesis."

That means it enables your cells to create new mitochondria. So far, it's the only known substance that has that power.

And that's good news, because our bodies struggle to make new mitochondria as we age. We're equipped with a gene called PGC-1α that instructs your cells to create new mitochondria. But by the time you reach your 50s, the expression of this gene is inhibited by age and the toxins in our environment.

That means getting older in our modern world causes your mitochondria to die off and your energy to dry up.

The Adventures of Mighty Mouse

In one study, published in the *Journal of Nutrition*, researchers fed mice a diet supplemented with PQQ, resulting in a staggering number of new mitochondria in just 8 weeks.

Have a look at this graph.

On the left side of the graph, you can see the number of mitochondria before the mice were fed PQQ. And on the right, you can see what happened after the mice started taking PQQ.

Mitochondria increased by 55 percent. In just 8 weeks, PQQ dramatically boosted the number of mitochondria in the cells of the mice.

This is great news for your entire body, especially for your brain. PQQ stimulates the natural production of nerve growth factor, which triggers the growth of new brain cells.

BURSTING WITH ENERGY: Seniors are shaking off decades of fatigue and waking up to a new and exciting lifestyle with the doctor-formulated "cellular energy" pill called **Ultra Accel II**.

Transformed Before Their Eyes

During a first-of-its-kind human clinical trial, a group of Japan's most-esteemed researchers put PQQ through its paces. The study results were impressive.

After giving 17 adult male and female participants 20 mg of a patented form of PQQ for 8 weeks, they watched one after another transform before their eyes.

Their fatigue disappeared. They slept through the night. Spirit and mood improved. And their energy levels shot through the roof.

New Hope for Aging Seniors

"Prior to this discovery, it was impossible to regrow mitochondria," says Dr. Sears. "But today, this little-known molecule has the power to help restore youthful energy in your muscles, heart, and brain."

"I'm a 70-year-old man and I've been taking **Ultra Accel II** for 2 1/2 months. On a recent treadmill stress test, I was told I did as well as several patients tested who were in their 20s," says John H. of Bradenton, Florida.

What Satisfied Users are Saying

Americans are feeling sharper, faster, and more energetic than

they have in decades.

Here's what Tom B from Wichita, KS said: "On the third day of taking it, I suddenly had a 'burst' of energy. I used to have to take naps every day, and now I can stay awake most of the day, like as if I were in my 50s again. (I am 64 now.)"

Colleen from Amarillo, TX said: "I have energy I never thought possible. I'm in my 70s and feel 40 again. I think clearer, move with real energy and sleep like a baby."

How to Get Ultra Accel II

To secure the hot, new **Ultra Accel** formula, buyers should contact the Sears Health Hotline at **1-800-714-4255** TODAY. "It's not available in retail stores yet," says Dr. Sears. "The Hotline allows us to ship directly to the customer." Dr. Sears feels so strongly about **Ultra Accel**, all orders are backed by a 100% money-back guarantee. "Just send me back the bottle and any unused product within 90 days from purchase date, and I'll send you all your money back."

Call NOW at **1-800-714-4255** to secure your supply of **Ultra Accel**. Use Promo Code **UATW07** when you call. Lines are frequently busy, but all calls will be answered!
