Better than cannabis, better than CBD

New Joint-Supporting "Miracle Oil" Capsule Delivers Hip, Knee, and Shoulder Comfort in Just Days

Thousands of Americans are rediscovering normal freedom of movement thanks to a "miracle oil" capsule that's outperforming hemp in promoting joint comfort.

According to the official figures from the CDC, more than 58 million Americans are living with joint discomfort. This epidemic has led to a search for alternative approaches – as many sufferers seek relief without the harmful side effects of conventional "solutions."

Anti-aging specialist Dr. Al Sears is leading the way with a new formula he calls "the most significant breakthrough I've ever found for easing joint discomfort."

The capsule is based on a "miracle oil" historically treasured for its joint health-supporting properties. Marco Polo prized it as he blazed the Silk Road. And to this day, Ayurvedic practitioners rely on it to promote optimal joint health.

Now, with a modern twist backed by science, Dr. Sears is making this natural solution for joint health available to the public.

Your Body's Hidden "Soothing System"

Joint health research changed forever with the discovery of the endocannabinoid system (ECS) in 1992. Up until that point, research on cannabinoids focused on psychoactive effects. Now, scientists were looking at a new way to fight occasional aches and pains.

Your ECS serves as a central "signaling system" that tells your body how to react to things you do every day. It controls several critical bodily functions such as learning and memory, sleep, healthy immune responses – and your response to discomfort.

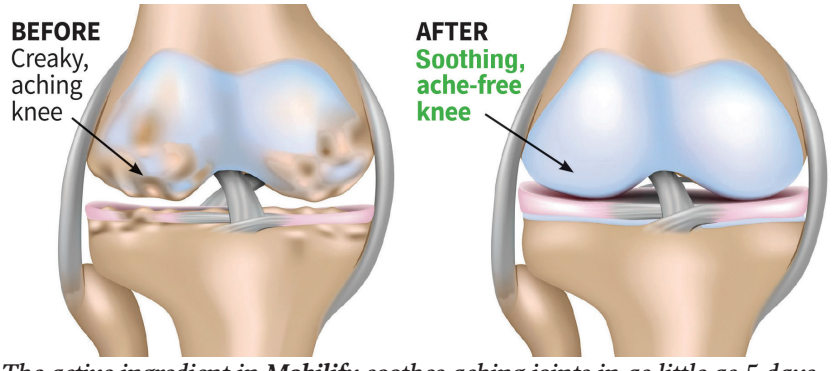
A recent study revealed a direct link between the ECS and creaky, sore joints. Researchers at the University of Edinburgh studied the aging of mice with endocannabinoid deficiencies versus "normal" mice.

As they aged, the deficient mice had a whopping 60% more joint degeneration than the mice with a healthy ECS.

As the name suggests, the ECS responds to cannabis. At the time it was discovered, scientists assumed that was the best way to support it. But thanks to Dr. Sears' all-natural solution, you can power up your ECS without marijuana.

"Calling it the 'endocannabinoid system' was a misnomer from the very beginning," Dr. Sears explained. "Modern research reveals that you don't need cannabis to activate this incredible system. You don't need to 'get high' to get joint relief."

A scholarly review found that plants and herbs that don't produce mind-altering effects can support the ECS and help it maintain its healthy functions.



*The active ingredient in **Mobilify** soothes aching joints in as little as 5 days*

This includes common foodstuffs, such as kava, chocolate, black pepper, and most significantly – the star ingredient to Dr. Sears' own **Mobilify** formula - frankincense.

Modern scientists say this natural ingredient meets "cannabinoid tetrad" – the signs used to determine if something supports the ECS. While it doesn't produce a "high" like cannabis does, it binds to the same receptors to support a healthy response to discomfort.

All the Benefits of CBD – Without Cannabis

Indian frankincense, the chief ingredient in **Mobilify**, has been shown to provide all the benefits of cannabis without any feelings of sluggishness or sleepiness.

And studies show that users don't have to wait long for the comfort they're looking for.

In a study published in the International Journal of Medical Sciences, 60 patients with stiff knees took 100 mg of Indian frankincense or a placebo daily for 30 days. Remarkably, Indian frankincense "significantly" supported healthy joint function and relieved discomfort in as little as five days.

Additional research linked regular use to lasting comfort.

In another study, 48 participants were given an extract made from frankincense for 120-days. When the results came in, researchers determined the extract strongly supported joint comfort – especially in the knees.

These results were all achieved without marijuana. Research continues to back up the idea that you can support smooth, strong, and healthy joints naturally – without tiredness or sluggishness.

Get Moving Again with Mobilify

Mobilify has already helped thousands of Americans stay on their feet and breeze through their daily activities with ease.

One user even reported getting results the same day it was used.

"**Mobilify** really helps with soreness, stiffness, and mild temporary discomfort," Joni D. said.

Larry M, another user, compared taking **Mobilify** to living a completely new life.

"After a week and a half of taking **Mobilify**, the discomfort, stiffness, and minor aches went away…it's almost like being reborn," he said.

Dennis H. said it helped him get back to his favorite hobby.

"I can attest to **Mobilify** easing discomfort to enable me to pursue my golfing days. Definitely one pill that works for me out of the many I have tried," he said.

How to Get Mobilify

Right now, the only way to get this powerful, unique Mobilify formula that clobbers creaking joints without clobbering you is directly from Dr. Sears. It is not available in stores.

To secure your bottle of this breakthrough natural joint discomfort reliever, buyers should call with Sears Health Hotline at **1-800-334-2803**. "The Hotline allows us to ship the product directly to customers."

Dr. Sears believes in this product so much, he offers a 100% money-back guarantee on every order. "Just send me back the bottle and any unused product within 90 days, and I'll send you your money back," said Dr. Sears.

The Hotline will be taking orders for the next 48 hours. After that, the phone number may be shut down to allow them to restock. Call **1-800-334-2803** to secure your limited supply of **Mobilify**. If you are not able to get through due to extremely high call volume, please try again! Call NOW to qualify for a significant discount on this limited time offer. To take advantage of this exclusive offer use Promo Code: **MBTW10** when you call.

WILLIAM SHATNER TALKS "STARS ON MARS"

By Ryan A. Berenz

Some celebrities act like they're on another planet. *Stars on Mars* takes it a step further.

In this new unscripted series debuting Monday, June 5, on FOX, 12 "celebronauts" will suit up and enter a simulated Mars habitat to live, eat, sleep and strategize in a *Survivor*-style game on a fake Red Planet. They'll have to accomplish tasks from Mission Control, contend with the environment and make nice with their crewmates. One by one, the celebs will be voted off the planet and launched back to Earth until one Martian stands alone.

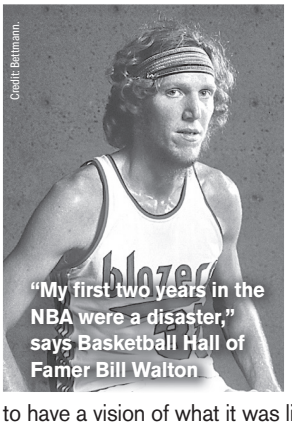
William Shatner, a man who knows a few things about Hollywood and spaceflight, will issue orders to the celebs from Mission Control. After decades at the helm of *Star Trek*'s starship *Enterprise*, the actor, now 92, took a real suborbital ride aboard Blue Origin's *New Shepard* launch vehicle in 2021.

"It's a rush. It's incredible," Shatner says of his astronaut experience. "It's something out of a dream and a nightmare, going up into space. It's all that dreamlike thing where you experience something that you've never experienced before, and also you realize it's fraught with danger."

The celebronauts will live in a Mars station replica built in the Australian Outback town of Coober Pedy, known for its opal mines. "It is one of the hottest, driest places on Earth," Shatner says. The heat is so intense in Coober Pedy that most of the residents live in underground "dugouts," making it the ideal place to simulate a confined colony.

The rust-colored, rocky terrain is also a perfect setting. The Jet Propulsion Laboratory once gave Shatner a virtual-reality view of Mars with footage captured by a rover. "I used these 3D goggles, and everywhere you turn, you're looking at the landscape of Mars," he says. "So I've gotten a real vision of it, and it's not unlike Coober Pedy."

While the show is tongue-in-cheek and the goal is entertainment, there's something to be learned from this experiment. It is inevitable that a few humans will be interplanetary celebrities for setting foot on Mars. "As an outpost in moving mankind around the solar system and the adventure of knowledge, it certainly is going to happen," Shatner says. "The journey to Mars is closing in, but *Stars on Mars* will get there first."



"My first two years in the NBA were a disaster," says Basketball Hall of Famer Bill Walton

ESPN Presents A Deep Dive Into The Life Of A Basketball Great. By Ryan A. Berenz

He's a Basketball Hall of Famer, a two-time NCAA champion, a two-time NBA champion and the undisputed tallest member of the Grateful Dead Hall of Honor. It could be none other than the legendary Bill Walton, the repeatedly self-described "Luckiest Guy in the World." Steve James (*Hoop Dreams*) directs an immersive *30 for 30* documentary for ESPN looking back at Walton's incredible career on the court, and his socially and politically conscious life off of it. "The Luckiest Guy in the World" debuts June 6 (Episodes 1-2) and 13 (Episodes 3-4), and features a trove of interviews, archival footage, home movies and intimate conversations with Walton as he visits meaningful places in his life. "This film is for people who want to learn, who want to understand. Who want to have a vision of what it was like," Walton said. "And so I just hope for the best. I'm trying to make it, trying to get to heaven before they close the door."

"THE LAZARUS PROJECT" FINALLY COMES TO TNT

It's like Groundhog Day all over again in the gripping, heartbreaking, time-traveling drama *The Lazarus Project* (premiering Sunday, June 4 on TNT). Paapa Essiedu, from HBO's *I May Destroy You*, stars as George, an average guy who finds himself in an extraordinary situation when he starts to relive the same few weeks over and over again.

George learns he's a "time jumper" and gets recruited by The Lazarus Project, a top-secret multinational organization dedicated to preventing and undoing mass extinction events through diplomatic or scientific means. In other words, their job is to save the world from destroying itself at all costs — even if it means going back in time and changing things to do so.

"We shot this show during peak lockdown back in January 2021, so it was like no one was allowed to leave their house, a real sense of existential threat in the world," Essiedu tells us. "This show was initially called *Extinction*, so it felt apt to be jumping headfirst into it. I fell in love with this script from the first page, from the first episode. … The writer, Joe Barton, has a very unique, idiosyncratic, genre-spanning and genre-jumping voice."

While The Lazarus Project is willing to reset the clock after events like the dropping of an atomic bomb, civil wars and worldwide viruses, it refuses to help George when things get personal.

"You've got to remember that this is a super-normal dude. He's an app developer who finds himself in a very extraordinary situation. He's riding high off of [being recruited into this group], until something happens that takes something away from him, that personally affects him. And he's put in a position of, basically, do you do your job, or do you look after your personal life?

"When you're forced to choose between the people that you love and your sense of responsibility for the world at large, it's super, super hard," Essiedu concludes. "We see George go on a roller-coaster journey of chaos until we finally get an answer to on what side of the line he lies."

Put your seat belts on, and remember, turning back time is not always a good thing! — *Barb Oates*

STARZ will debut season 7 of ***Outlander*** on Friday, June 16 at 8 PM ET/PT, also available on the STARZ app, along with its streaming platforms. The new season of this time-traveling drama picks up from the harrowing events of the end of season 6, with Jamie Fraser (Sam Heughan) and Young Ian (John Bell) racing to rescue Claire Fraser (Caitríona Balfe) before she's tried and wrongfully convicted for the murder of Malva Christie. But their mission is complicated by the beginning of a geopolitical firestorm: The American Revolution has arrived. Jamie, Claire and their family are caught in the violent birth pains of an emerging nation as armies march to war and British institutions crumble in the face of armed rebellion. The land that the Frasers call home is changing and they must change with it. The cast also includes Sophie Skelton, Richard Rankin and David Berry, along with newcomers Charles Vandervaart, Izzy Meikle-Small and Joey Phillips.

ABC will premiere the new season of ***The Wonder Years*** on Wednesday, June 14 at 9 PM ET/PT. Inspired by the beloved award-winning series of the same name, this original coming-of-age comedy tells the story of the Williams family during the late 1960s, spotlighting the ups and downs of growing up in a Black middle-class family in Montgomery, Alabama, and the friendship, laughter and lessons along the way. The Peabody Award-winning series stars Don Cheadle, Elisha "EJ" Williams, Dulé Hill, Saycon Sengbloh, Laura Kariuki, Julian Lerner, Amari O'Neil and Milan Ray.

HBO will debut season 3 of its original series ***The Righteous Gemstones*** on Sunday, June 18 at 10 PM ET/PT, with back-to-back episodes. Starring Danny McBride, John Goodman, Edi Patterson and Adam Devine, this is the story of a famous televangelist family with a long tradition of deviance, greed and charitable work. When the spoiled Gemstone children finally get their wish to take control of the Church, they discover leadership is harder than they imagined.

IN THE NEWS:
"This one's a gamechanger. … Looks the same as the fanciest diamond for a fraction of the price."
— The TODAY Show on NBC

Price Drops 83%... ONLY Through Stauer

Jewelry shown is not exact size. Pendant chain sold separately.

Moissanite clarity is exceptional & comparable to a VVS1 diamond

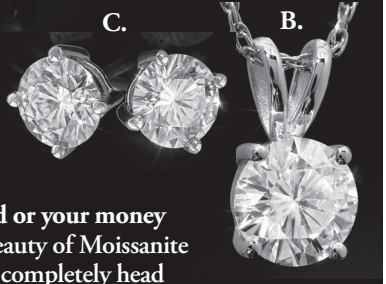
CALLING THIS A DIAMOND WOULD BE AN INSULT

Possessing fire, brilliance, and luster that far surpasses that of a diamond, this Nobel Prize winner's discovery twinkles and sparkles unlike any stone on earth.

When French chemist, Henri Moissan discovered an incredibly rare mineral in a 50,000 year-old meteorite, little did he know the amazing chain of events that would follow. Along with winning a Nobel prize, he gave the world a stone that surpasses even the finest diamond in virtually every aspect that makes a woman go weak in the knees. Today, you can own 2 total carats of this swoon-worthy stone for a down to earth price of $99.

The most brilliant fine stone on earth. According to the GIA (Gemological Institute of America), Moissanite outperforms all jewels in terms of its brilliance, fire, and luster. Moissanite has "double refraction"— which means light goes down into the stone and comes out not once, but twice. No diamond can do this.

The genius of affordability. A one-carat diamond of this color and clarity sells for more than $5,000. Two years ago Moissanite was over $1,000 a carat. Now, for the first time in history, our team of scientists and craftsmen have mastered the innovative process, enabling us to price 2 carats of moissanite in precious sterling silver for less than $100. It's pure genius. Our Nobel Prize-winning chemist would be proud.



Satisfaction guaranteed or your money back. Experience the beauty of Moissanite for 30 days. If she's not completely head over heels send it back for a full refund of the item price. But we have a feeling she'll be over the moon.

AJIONA ALEXUS

By Barb Oates

Grammy-winning superstar Mary J. Blige's hit songs serve as the inspiration for two Lifetime original movies debuting this June, where Blige serves as executive producer. The films, titled after each song (*Mary J. Blige's Real Love* on Saturday, June 10, and *Mary J. Blige's Strength of a Woman* on Saturday, June 17), tell the ongoing journey, stretched across time, between 18-year-old Kendra (played by *Empire*'s Ajiona Alexus) and Ben (played by *BMF* and *All American* star Da'Vinchi). Here Alexus shares more.

1. What touched your heart when reading the scripts? There's an authentic connection between the scripts and the songs that's heartfelt. I couldn't help but to reflect on my own experiences and the experiences of others I know. Watching Kendra and Ben navigate the challenges of life while searching for real love are the moments that will melt your heart.

2. What do you think audiences will appreciate about your characters and their journey? Kendra's resilience and strength. She doesn't allow life's challenges to get in the way of her passion for photography. Regardless of her past, she's determined to create a better life for herself and her family.

3. If you could rate the emotional tone of the movies on tissues required, with 5 being a major tear-jerker, where would you put both movies on a scale of 1 to 5? During some of the scenes, everyone on set was in tears, as we touched on some very sensitive topics — infidelity, betrayal, substance abuse, grief and loss, to name a few. I would rate each movie a 5 on the tear-jerker scale. Keep some Kleenex close by!

4. Who did you enjoy portraying more and why — your younger or older character? I genuinely enjoyed both roles — they are unique in their own way. I feel we can all learn something about life through the experiences of younger and older Kendra. It was important for me to make strong choices to embody the character of both young and old Kendra, especially when dealing with such sensitive subject matters. Some of the scenes were so sensitive that we all had to break from filming to regroup from the emotional weight of the scene. My hope is that the audience will feel the gravity of the situations that Kendra experiences.

5. Will we hear you sing in the film? I'm not singing in the movies, but I am extremely proud to announce that I will be releasing a new single in June titled "Made for Me." We are also thrilled and grateful that song will be featured in *Strength of a Woman*. "Made for Me" showcases melodic R&B vocals on an up-tempo beat; the lyrics tell a story about falling in love with your soulmate.

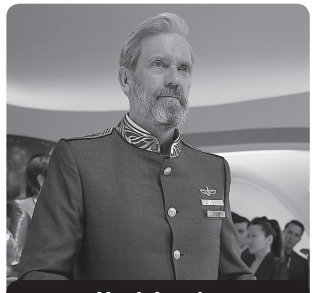
HOROSCOPES

By Yasmin Boland



Hugh Laurie, a Gemini (born June 11), of "Avenue 5"

ARIES (March 21 - April 19) If you blew your professional life up recently, now is the chance to resurrect it. Think of yourself as the phoenix rising from the ashes and you'll get the best of the astrology currently on offer to you. Avoid bullies around the workplace though. Also, don't be a bully yourself!

TAURUS (April 20 - May 20) It's time for you to blast away outdated beliefs and life philosophies. You may feel a strong urge to explore new ways of thinking, or even be drawn to mystical or esoteric teachings. Follow those feelings! Now is the time to reshape your worldview. If your mind's not open, it's shut.

GEMINI (May 21 - June 20) Problems you've had to do with those two touchy subjects of sex and money can't be swept under the carpet forever. As Pluto re-emerges in your Sex and Money Zone, it's time to get to the bottom of whatever issue might be spoiling your finances or intimate life. Dig deep emotionally.

CANCER (June 21 - July 22) Just when you thought you had moved away from those impassioned relationship moments, here comes Pluto ready to give you one last chance to experience the magic of love. If you don't learn your love lessons now, it could soon be too late! Do rectify past mistakes. Don't be manipulative.

LEO (July 23 - Aug. 22) A very long time in the recent past, detox was one of your keywords. So did you detox? Your life? Your home? Your health? Your working situation? If not, you are being given one more chance to do that. It will change your life. Make detoxing a priority.

VIRGO (Aug. 23 - Sept. 22) All of your most important life lessons are coming from your most important relationships right now. That can be heavy going and it might feel that your love life has frozen over a little bit lately. Happily, this week, you can light the fire that will melt the relationship frost. Be loving.

LIBRA (Sept. 23 - Oct. 22) Your home and personal life has been a hot bed of eruptions over the past few years. Hopefully what you're now left with is a much less toxic situation. If you didn't really get rid of all the negativity at home though, you're getting one more chance now. Release the past.

SCORPIO (Oct. 23 - Nov. 21) You need to understand that your thoughts create your life. That's a lesson that's been coming your way for the last few years. Have you been paying attention? If not, then start to pay attention now! Your word is your magical wand, so to speak. Thoughts become things.

SAGITTARIUS (Nov. 22 - Dec. 21) On some level, you've probably accepted that you need to detox your financial situation or at least the way you think about it. If not now, then when? Use the re-emergence of Pluto in your Money Box this week to get rid of financial habits that are doing you damage. Spend wisely.

CAPRICORN (Dec. 22 - Jan. 19) This week the planet of power and eruptions, Pluto, reverses back into your sign. It's one of the best things that could possibly happen to you. It's time to face your shadow. Deal with it now for better results for the rest of your life! Come to terms with your dark side.

AQUARIUS (Jan. 20 - Feb. 18) In a way, the pressure is coming off you this week since you may have heard of impending doom should start to lift. However, it's not licenced to go back to sleep, metaphorically speaking. Rather use this week to blast through your worries and fears. Healthy mind, healthy life.

PISCES (Feb. 19 - March 20) Think about the people you spend most of your time with. As you know, they rub off on us. Are you spending your time with people who make you feel like a better person or just filling your social calendar for the sake of it? Get rid of any frenemies.

The 50th Annual Daytime Emmy Awards Have Been Postponed

Soap opera viewers are used to having to wait and wait to see storylines reach a satisfying climax. In a case of life imitating art, daytime drama fans are going to have to wait to find out who the winners are at the 50th Annual Daytime Emmy Awards. The televised ceremony is being postponed.

Exactly one month before the awards were scheduled to be handed out during a live two-hour broadcast, the National Academy of Television Arts and Sciences announced, "The 50th Annual Daytime Emmy Awards planned for Friday, June 16 on CBS is postponed due to the WGA [Writers Guild of America] strike. In addition, the Creative Arts & Lifestyle ceremony, planned for Saturday, June 17, has been postponed pending a strike resolution. We look forward to our community gathering together as one to celebrate our Golden Anniversary and all of the talented nominees and honorees at a later date."

The ongoing strike hasn't directly affected the soaps yet, as serials are shot approximately four to six weeks in advance. *Days of our Lives*, which streams on Peacock, tapes approximately five months ahead of what viewers see. However, many soaps writers have closed up their laptops. The shows are currently being written by either "scab" writers or scribes who have gone "fi-core," a status with the Writers Guild that enables them to continue to work during a strike. "Fi-core" writers are not allowed to run for office in the WGA, nor can they accept a WGA award.

One actor who definitely *won't* be going home with a golden statuette this year is Victoria Grace (Wendy Shin, *Days*). The actress had been nominated in the category of Outstanding Younger Performer in a Daytime Drama Series along with Eden McCoy (Josslyn, *General Hospital*), Henry Joseph Samiri (Douglas, *The Bold and the Beautiful*) and Cary Christopher (Thomas, *Days*).

Soon after the nominees were announced, Grace said that she was rescinding her nomination. "I was honored to be nominated for a Daytime Emmy and to be recognized by the Academy," Grace shared on social media. "Unfortunately, there was a huge misunderstanding across the board regarding the rules for this year's category. This is obviously a surprise, and I am heartbroken, but in fairness to all, I'll be rescinding my nomination. I wish the best of luck to all the nominees. I will continue to work hard to earn another Daytime Emmy nomination next year!"

ASK MATT

WILL ABC REPEAT *WILL TRENT* OVER THE SUMMER?

@TVGMMattRoush

Question: Will ABC show reruns of *Will Trent*'s first season? I've recommended it to family but they don't have Hulu. –*Marquita*

Matt Roush: I looked online and found all of the *Will Trent* episodes on abc.com. I wouldn't count on the full first season being repeated over the summer, though. ABC tends to fill those time periods with unscripted programming, even favoring repeats of game shows over reruns of scripted shows. And I've often argued that rerunning certain shows during the off-season, especially for something like *Will* that's still finding its audience, can help promote the next season.

Comment: I loved *Young Sheldon*, when Sheldon was young! The teenage Sheldon is missing something. –*Joan*

Matt Roush: I am intrigued at the challenge the writers face in keeping Sheldon's story interesting when the novelty has long worn off because Sheldon, though clearly not of university age, isn't quite as startling a prodigy as he was when the series began. It's always tricky in the latter years of a family comedy when the kids grow out of their initial cute phase, and this is an extreme case of that.

America's Got Talent

CHEERS & JEERS

by Damian Holbrook
TV Guide Magazine

@damianholbrook

CHEERS TO *CITADEL*

for making the spy game fun again. Not since *Alias* has espionage been as frisky as it is in this Prime Video thriller starring Priyanka Chopra Jonas (above) and Richard Madden as secret agents with more to hide than their undercover identities.

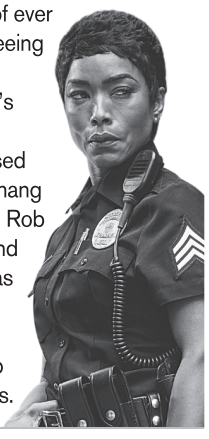
CHEERS TO ABC

for correcting a *Dancing With the Stars* misstep. After last year's clumsy shuffle over to streamer Disney+, the fringe fest is heading home for Season 32. And Alfonso Ribeiro (above) and Julianne Hough are cutting in as hosts for the exiting Tyra Banks. That gets 10s all around from us!

follow Cheers & Jeers

JEERS TO A FRACTURED FRANCHISE.

With *9-1-1* moving to ABC next season and its *Lone Star* spinoff staying put on Fox, it feels like our hopes of ever again seeing Angela Bassett's (right) L.A.-based heroes hang out with Rob Lowe and the Texas crew have gone up in flames.



JEERS TO *SURVIVOR'S*

pesty prize. In CBS's May 3 episode, Frannie won a reward challenge that sent her and guests Lauren, Heidi and Carolyn off to a beachside buffet of tacos, guac…and loud, swarming flies all over the food. That is not the kind of buzz ya want, Probst (below).

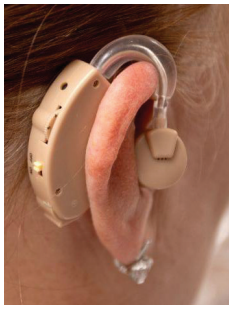
Invisible Hearing Aid Uses CIA Technology So Powerful That It Can Pick Up a Whisper Across the Room

Here's How You Can Get Them Today To Hear More Clearly And Stay Engaged in Conversations...

Most modern hearing aids have serious flaws!



- **Everybody notices them** – they'll make you look 20 years older the instant you put them on
- **They collect sounds from behind you** – which makes hearing your friends in a restaurant or crowded room impossible
- **They use 10-year-old technology** that amplifies everything (sometimes too loud!)– which can cause even more hearing loss!

Fortunately, there is a better way. **Soundwise** uses CIA technology that was specifically designed to pick up whispers so hearing your loved ones or the television so much clearer is virtually guaranteed.

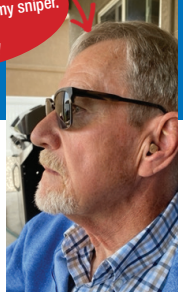
No more avoiding noisy restaurants, movie theaters, or crowded places. You can hear your friends AND enjoy life thanks to **Soundwise**.

Plus, hearing loss is a leading cause of dementia and deadly falls among seniors. Don't become another victim!

Introducing: The Soundwise Aria

The world's most affordable, advanced in-ear hearing aid

This veteran suffered major hearing loss from his time as an Army sniper. *Now he can hear again!*



These hearing aids are incredibly advanced and packed with new technology:

- Advanced noise cancelation
- Ultra lightweight and discrete, hides in the ear completely!
- CIA-developed digital audio enhancement
- FDA registered
- Backed by Board Certified Hearing Specialist Dr. Kenneth Nunnally
- Risk-Free Home Trial with **ONE YEAR Guarantee** – the only one of its kind in the industry!
- Free portable charging station so you'll never have to worry about batteries – **the charge lasts 2 full days!**

Dr. Kenneth Nunnally

And the best part:
it costs a fraction of what audiologists will charge you for hearing aids.

Our patients are saving 90%!!
